

Product List

A

Acetic Acid 99.5%
 Acetone
 Alcohol Denatured Tecsol A-95%
 Alcohol Isopropyl (IPA)
 Aluminum Sulfate Liquid
 Aluminum Sulfate Ground
 Ammonium Bifluoride Flake
 Ammonium Chloride Treated
 Ammonium Hydroxide 19.4%
 Anti Freeze
 Aqua Ammonia 21*

B

Bentonite
 Bisorb Oil Absorbent
 Borax 5 Mole
 Borax Anhydrous
 Boric Acid
 Butyl Alcohol

C

Calcium Chloride Flake
 Calcium Chloride Pellet
 Calcium Hypochlorite Granular
 Calcium Hypochlorite 1" Tablets
 Calcium Hypochlorite 3" Tablets
 Carbon Powder Activated
 Caustic Soda 20-50%
 Caustic Potash 45%
 Caustic Soda Pels
 Caustic Potash Flake
 Chlorine
 Chromic Acid Crystals
 Chromic Acid Flake
 Citric Acid Anhydrous Granular
 Coagulant Aids
 Copper Sulfate
 Corrosion Inhibitors

D

Dechlor Tablets 25/8"
 Defoamers
 Diacetone Alcohol
 Diatomaceous Earth
 Diethylene Glycol
 Di-Isobutyl Ketone
 Dibutyl Phthalate
 Dioctyl Adipate
 Dioctyl Phthalate

E

Earthtec
 Epsom Salts
 EB Solvent
 (Ethylene Glycol Monobutyl Ether)
 Ethylene Glycol Tech Grade
 Ethyl Acetate 99-99.5%

F

Feldspar
 Ferric Chloride 38%
 Ferric Sulfate Tech Granular
 Ferrous Sulfate
 Filter Aids
 Floor Dri 85 Oil Absorbent
 Fluorspar
 FW-12
 FW-14
 FW-60

G

Gilsonite
 Glycols
 Glycol Ether Solvents

H

Hexane
 Hexylene Glycol
 Hydrochloric Acid 20*
 Hydrofluoric Acid 49%
 Hydrofluoric Acid 70%
 Hydrofluosilicic Acid 23%
 Hydrogen Peroxide 35% & 50%

I

Isopropyl Alcohol (IPA)
 Isophrone

J

JET Chlor Tablets 3"

L

Lacquer Thinner
 Lime Granular Quick
 Lime Hydrated
 Lime Hydrated Vertical

M

Magnesium Sulfate
 Methanol
 MEK
 (Methyl Ethyl Ketone)
 MIBK
 (Methyl Isobutyl Ketone)
 Methylene Chloride Tech
 Mineral Spirits, Non Exempt
 Mineral Spirits, Odorless
 Mineral Spirits, Rule 66
 Muriatic Acid 20*
 Muriatic Acid 20* Inhibited

N

Nitric Acid 42*

O

Orthophosphate
 Oxalic Acid

P

Perchlorethylene
 Phosphates
 Phosphoric Acid 75 & 85%
 Polymers
 Polyaluminumchloride
 Polyphosphates
 Potassium Bichromate Tech
 Potassium Carbonate Anhydrous
 Potassium Chloride Fine Treated
 Potassium Hydroxide Flake
 Potassium Hydroxide 45%
 Potassium Nitrate Tech Prilled
 Potassium Permanganate
 Propyl Acetate, Normal
 Propylene Glycol Industrial
 PM Acetate
 (Propylene Glycol Monomethyl Ether)

S

Soda Ash Briquettes
 Soda Ash Dense
 Soda Ash Light
 Salt
 SmartPhos™
 Sodium Bicarbonate Industrial
 Sodium Bichromate Granular
 Sodium Bisulfite 38%
 Sodium Fluoride Granular
 Sodium Fluorosilicate
 Sodium Hexametaphosphate
 Sodium Hypochlorite 12-15%
 Sodium Metabisulfite Tech Grade
 Sodium Nitrate Industrial Prilled
 Sodium Nitrite Technical Granular
 Sodium Silicate *all grades*
 Sodium Silicofluoride
 Sodium Tripolyphosphate
 Sodium Sulfate Anhydrous
 Sodium Sulfite Anhydrous
 Solvent 100
 Solvent 150
 SP-50
 Sulfur Dioxide
 Sulfuric Acid *

T

Texanol Ester
 Toluene
 Trichloroethylene

U

Urea

V

VM&P Naptha

X

Xylene

Z

Zinc Chloride
 Zinc Sulfate
 Zinc Orthophosphate

www.salchem.com

SAL Chemical has been a family owned regional commodity and specialty chemical distributor serving many diverse industries from its inception in 1965. Our mission is to serve our customers needs with a mutually beneficial partnership approach to doing business. SAL Chemical has continually gained experience in understanding the rapidly changing chemical industry in order to exceed customers' expectations.

Commitment to Quality

SAL Chemical's commitment to ISO 9001:2000 Quality Process has not only set high standards for our products and services, but our commitment to NACD's (National Association of Chemical Distributors) Responsible Distribution Process to responsible practices in health, safety and the environment. Quality at SAL Chemical is a vital element in satisfying customers needs.

Investment in the Future

SAL Chemical has reinvested in our warehouse, packaging equipment and fleet of trucks and trailers in order to provide customers with continued product quality and excellent service.

Customer Benefits

Managed/Consignment Inventory – through our managed/consignment inventory program, medium to large volume chemical users who have adequate storage space can reduce total overall cost by minimizing the number of deliveries, reducing transaction costs, and assuring an uninterrupted supply of product. Managed/consignment inventory customers may also benefit from possible monthly or statement invoicing.

Repackaging - products are received in bulk quantities and repackaged into appropriate containers to meet customers' needs.

Tank Telemetry – through an investment in tank monitors and communication software, we can continually monitor your bulk chemical inventories and arrange to replenish these inventories on a just-in-time basis.

Transportation – we operate our own extensive fleet which allows us to offer dependability and we can handle any special needs when making deliveries.

SAL Chemical will always strive to be our customers' supplier of choice, while also being responsible for the environment and for everyone's safety.
